Dear [Redacted]

In reference to my recent discussion with you, the AFCEA Intelligence Committee, which is jointly sponsoring the November Intelligence Symposium with DIA, truly appreciates General Heinz's willingness to assist us by providing a presentation. General Heinz will be receiving a letter of thanks from General Wickham, AFCEA's President. This year's symposium is entitled, "Intelligence and the Commander: Requirements, Productivity and Technology in the 1990's." As a member of the Intelligence Committee, I have been given the responsibility for pulling together the Symposium's third session. That session, which we have entitled, "National Foreign Intelligence Program Support to the Commander," is scheduled for the afternoon of the second day. All presentations will be given in the DIAC. The clearance level is Secret. Enclosed you will find a copy of the tentative overall symposium schedule which includes my current version of Session 3. As you will see, I have taken the liberty of providing a general synopsis of the General's presentation. Please don't feel bound by that description. If you, or the General, have other ideas, I'd be more than happy to discuss them with you. I would ask that we be provided with a copy of the presentation, including vu-graphs, one month before the scheduled presentation.

To date, we have over 400 people who have requested reservations. Maximum attendance is around 350. With the absence of a DITFOR this year, we expect this event to draw maximum attendance and interest throughout the community.

Again, we appreciate the General's participation and look forward to working with both him and you. Should either of you have any further questions, please feel free to call me either at home [Redacted] or in the office (703 556-7296).
